

TourMap

**A GPS-based App for Historical &
Cultural Tourism**

Yijing Wu (1008360471)

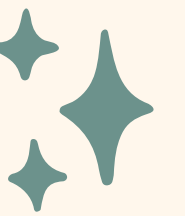

Functionality of TourMap

- Free GPS-based app for historical and cultural site discovery
- Highlights nearby attractions with visiting info and videos
- Interactive features: pop-ups and real-time comments
- Offers themed routes based on user interests
- Supports multiple languages

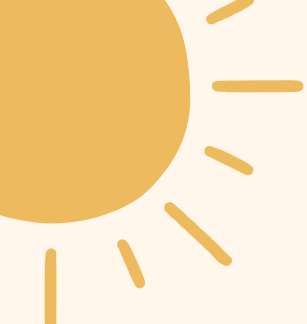

Target Users of TourMap

Demographics

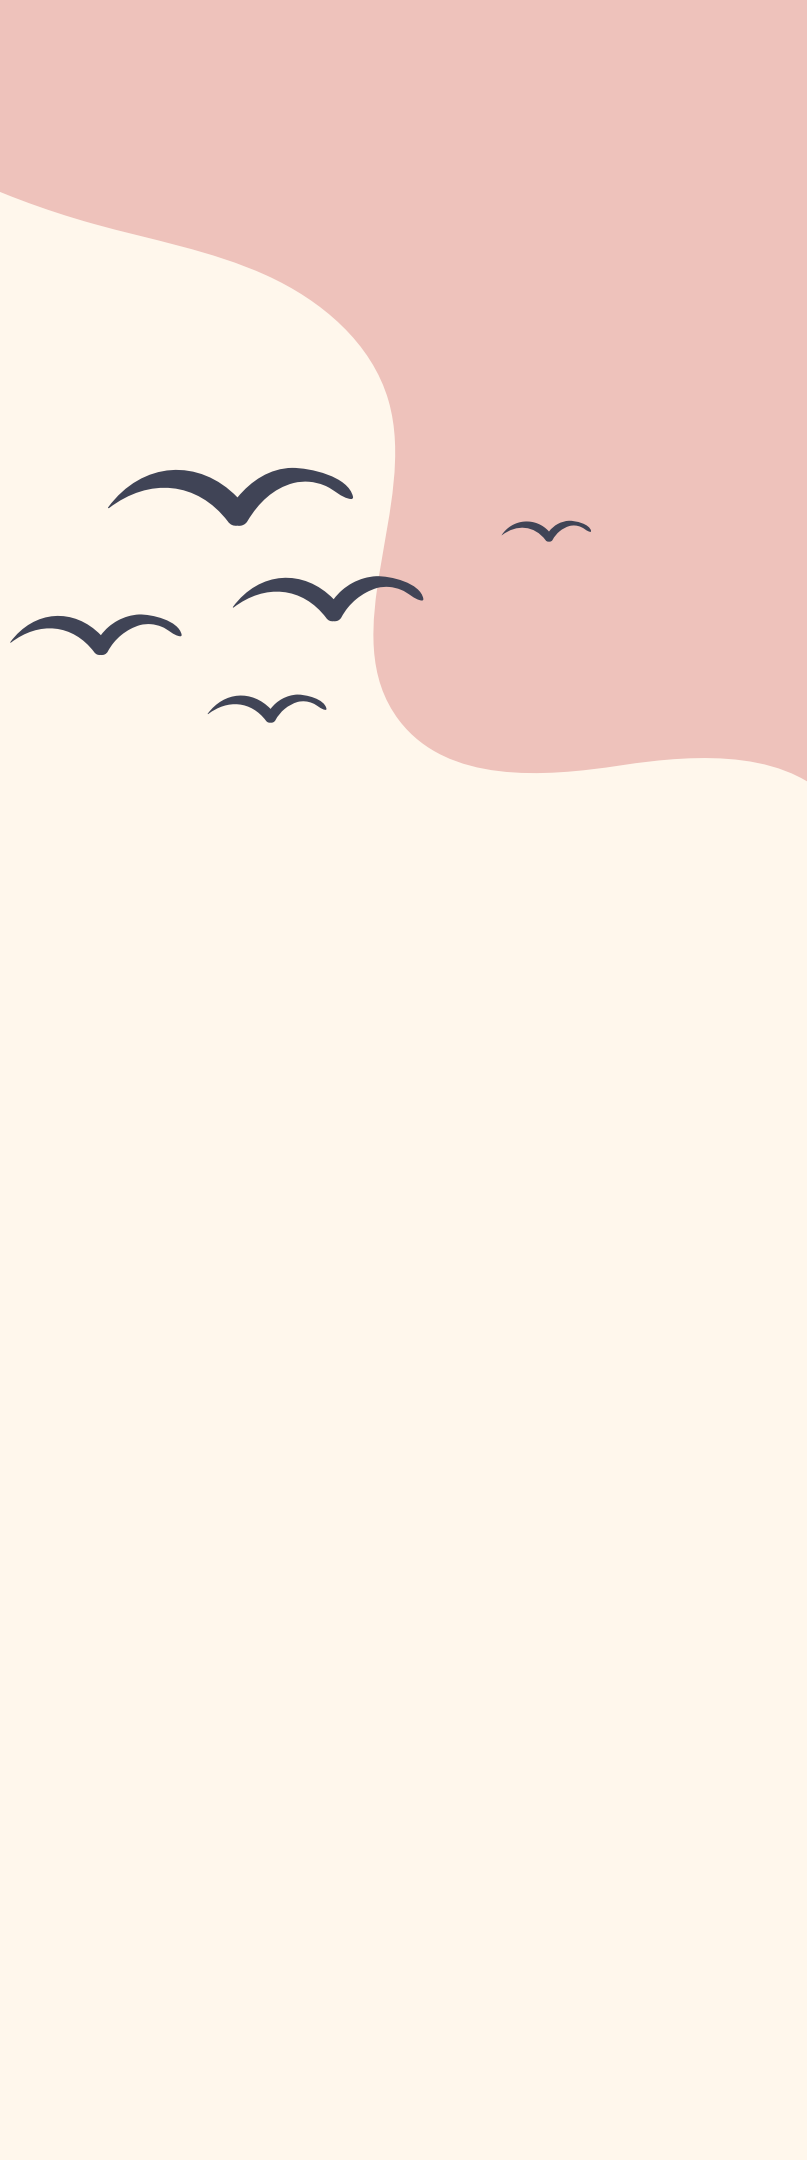

- Aged 18–40
- Highly educated, culturally aware
- Tech-savvy, app-friendly
- All income levels for locals & tourists

Lifestyle & Preferences

- Seek cultural, meaningful trips
- Prefer self-guided, immersive journeys
- Like using pop-ups for info and sharing

User Barriers of TourMap

- Lack of high-performance phones or stable Internet.
- Unfamiliar with interactive technology.
- Privacy concerns over location access.
- Local cultural content might be hard to understand.
- Limited city coverage may reduce interest.
- Too many features or pop-ups may overwhelm users.

User Motivations for TourMap

- Curious about culture and history, seeking meaningful journeys.
- Videos, text, and pop-ups keep users engaged.
- Enjoy customizable routes based on interests.
- Tech-savvy users open to interactive tools.
- Real-time comments reduce isolation.
- Multilingual and video features help users overcome cultural and language barriers.

THANK YOU
