The University of Hong Kong **Sep 2025 - Dec 2026**
- Master of Social Sciences in Media, Culture and Creative Cities

University of Toronto **Sep 2021 - Aug 2025**
- Honours Bachelor of Science
- Major in Communication, Culture, Information & Technology
- Minors in Applied Statistics & Mathematical Sciences

INTERNSHIP EXPERIENCE

CanSi Global **Marketing & Communications Assistant | Toronto (Hybrid)** **2025.03–2025.12**

Work Overview: Supported B2B overseas brand development by building digital communication channels through LinkedIn operations, website optimization, and exhibition marketing materials, improving brand visibility and customer engagement.
- **LinkedIn Content Operation:** Built the company's LinkedIn presence from 0 to 1 by developing weekly content plans (1–2 posts/week) and optimizing English copy and visual materials for overseas audiences. Increased followers from 0 to 40 within three months, improved search visibility, and established a consistent content operation system.
- **Website Content Optimization:** Identified the lack of dynamic content sections and developed an "Insights" page through WordPress to showcase company news, exhibitions, and business updates. Improved information structure and supported customer information discovery.
- **Exhibition Marketing Materials:** Led the content restructuring and visual design of corporate brochures and exhibition leaflets, transforming internal information into a customer-oriented structure. Developed Arabic materials to support Middle East market communication.
- **Competitor & Industry Research:** Monitored industry trends, competitor communication strategies, and overseas social media insights to support brand strategy optimization and content planning.

Estée Lauder **Marketing Intern | Shanghai (Remote)** **2023.03–2023.06**

Work Overview: Supported luxury beauty IMC campaigns by conducting channel analysis, social media insights, and gift set strategy development for the 520 promotional campaign.
- **Multi-channel Pricing Analysis:** Compared pricing structures and promotion mechanisms across Tmall, Douyin, official website, and mini programs. Built channel comparison analysis to support product pricing and gift set strategies.
- **Social Media Consumer Insights:** Analyzed 60+ competitor campaigns and thousands of user comments from Xiaohongshu and Douyin. Applied semantic analysis to transform product features into consumer-oriented scenario and emotional messaging.
- **520 Gift Set IMC Strategy:** Developed gift set recommendations based on consumer insights, combining hero products, emotional value-added items, and functional samples. Contributed to IMC proposals covering PR gifting, offline activations, and online campaigns.

PROJECT EXPERIENCE

Cuppia Overseas Digital Marketing Campaign **Brand Strategy / Digital Marketing** **Oct 2024 – Nov 2024**

Work Overview: Built Cuppia from 0 to 1 and developed an overseas Halloween digital marketing campaign, covering brand positioning, visual identity, and multi-channel content strategy to establish a DTC marketing pathway.
- **Brand Positioning & Visual Identity:** Developed brand naming, logo, visual guidelines, and user personas based on a "seasonal limited edition + holiday experience" positioning, creating a consistent brand identity system.
- **Integrated Marketing Campaign:** Designed the #CuppiaHauntedHalloween campaign with UGC interaction, Instagram giveaway, and promotional strategies to increase user engagement and strengthen brand connection.
- **Multi-channel Content Strategy:** Optimized content structures across Instagram, Email, and Landing Page while maintaining visual consistency, creating a complete user journey from awareness to conversion.

Personal Portfolio Website **Product Design / UX Design / Front-end Development** **Feb 2026 – Apr 2026**

Work Overview: Independently designed and developed a personal portfolio website, transforming it from an entertainment-style website into a professional portfolio platform with AI-assisted development workflows.
- **Information Architecture & Visual Redesign:** Redesigned the website with a modern professional style, unified visual elements, and optimized content structure to improve project presentation and information accessibility.
- **AI-Assisted Development:** Combined independent design planning with AI-generated code and manual optimization, reducing single-page development time from 2–3 hours to 1.5 hours and improving workflow efficiency.
- **Version Iteration Showcase:** Added Version History sections to demonstrate design improvements from V1 to V2, highlighting design decisions, iteration logic, and product thinking.

SKILLS & TOOLS

- **Overseas Social Media & Content:** LinkedIn/Instagram Operations, Content Planning, Campaign Execution, Bilingual Copywriting (Chinese & English), Performance Analysis, UGC Campaigns, Cross-cultural Communication
- **Data Analysis:** Applied Statistics, Excel Dashboards & Templates, Semantic Keyword Analysis, Channel Pricing Analysis, Consumer Insights, A/B Testing Logic
- **Design Tools:** Adobe Photoshop, Illustrator, InDesign, Premiere Pro, Figma
- **Technical Tools:** HTML/CSS/JavaScript, WordPress, AI-assisted Content Generation (ChatGPT, Claude, Prompt Engineering)
- **Languages:** English (Professional Working Proficiency; Experienced in Creating Overseas Marketing Content), Mandarin (Native)
